After that nice introduction, I forgot to cc Lisa. Thanks.

Hi Alice, received. Tetra Tech will confirm that they were able to locate the specific files we discussed a couple weeks ago. I was out Friday and yesterday, and out-of-pocket today, so catching up on messages, but Tetra Tech is also working on a number of smaller miscellaneous items per discussion or request (as well as one or two larger ones of course!). I look forward to getting back to you on the Gantt schedule, performance standards, modeling work group information, and our Sharepoint status, as well as a verification of our ability to meet the RDWP RTC response time - we're working with the 30 days for now but haven't fully developed our internal response calendar so I will double-check with the team.

FYI, you may have noticed I CC'd a Glenn Springs colleague of mine, Lisa Waskom. Lisa is assisting me with oversight and review of several tasks, including our deliverable tracking (and Tierra Passaic-related work for now), so you may see her name pop up sometimes. I am sure you will appreciate her behind the scenes help as much as I do, even if we don't always know it!

Thanks.

Juan

Let me know if you want to give anyone else on your team access to Sharepoint.
